Subject: Missing results in sequence search for 09/744,748

Hello Ms. Port,

The results of the search request for the above case was received in my Office on 10-7-02. However, I cannot find that the search results (print-outs) for the amino acid sequences, SEQ ID NO:1 and 2 which were included in my search request. The results I have are only for the nucleic acid sequences. I do not know whether it was searched but was not printed. Please let me know whether you can provide me a print-out now or should I request a separate search request. The above case is due this bi-week.

Thanks
Manjunath
